Solde de matières au préjudice de la fabrique

Le samedi, trois février, dix huit  
cent quarante neuf. Nous  
sous-signés membres et délégués  
du conseil de prudhommes. Félix  
Berlioz, Charles Prat, et Pierre  
Cherrier nous nous sommes  
transportés dans le magasin de  
Sciens Testier et Mulleron, marchands  
fabricants, demeurant rue St. Polycarpe  
à Lyon, et ce, à l'heure de sept du  
soir, pour y déposer dans l'un des  
placards de notre choix, deux parties  
de trame NOIR-NOIR, cuit. Après avoir  
dûment constaté le poids de chaque  
partie nous les avons peignées aux  
crochets du placard grillé et clos par  
un papier collé à l'intérieur des panneaux  
grillés. Puis, les portes du dit  
placard furent scellées, après quoi  
nous nous sommes retirés.

Le dimanche cinq février courant, à neuf  
heures et demi de matin, nous nous  
sommes de nouveau transportés dans  
le magasin ci-dessus désigné, nous  
avons procédé au bari des scellés en  
présence des Sciens Testier et Mulleron,  
puis, nous avons immédiatement  
pesé à nouveau les deux parties de  
trame, pesant comme à leur entrée  
au placard

une pièce, leine 1419 grammes,  
leutre 3339 grammes.

Après cette reconnaissance d'identité  
des poids, nous avons réclaté  
la vérification des livres de cuivre, à  
quoi les Sieurs Jesters & Moleron  
se sont refusé. Après avoir pris acte de  
cette déclaration nous nos soumes  
transportés à notre Secrétariat pour  
peser de nouveau les deux parties  
susmentionnées, aux balances de  
conseil de prudhommes. Ce pesage a  
confirmé l'exactitude de notre expérience.  
En foi de quoi nous avons signé le  
présent procès-verbal, Lyon, ce 5 février,  
1849.
